

# Co-op Intern - Microbiology, Lab Technician

## About Us

Come help us build our company! We are a Calgary based medical device start-up company focusing on innovative development of technologies aimed to improve gastrointestinal health. The SIMBA™ capsule provides a simple, low-cost way for in vivo sampling of the small intestine.

## Role Summary

This is a hands-on position, supporting teams in product development, production and benchtop and clinical testing – and presents a tremendous opportunity to quickly gain skills and experience in the design and clinical testing of medical devices. This is a pivotal point in the testing of our technology and we are excited to welcome you to the team. **Recruiting for 8-month full-time coop position May 2022 to Dec 2022** with opportunity to extend to 12 or 16-month coop position later on.

## Responsibility Snapshot

- Hands on clinical sample processing
- Manufacturing and testing tasks under ISO 13485:2016 production line
- Conducting verification testing in accordance with approved protocols
- Product receiving and inspection, inventory tracking
- Data analysis and report writing

## What You Bring to the Team

- You **are currently pursuing** a Bachelor, Masters or PhD in Biochemistry, Cell, Molecular or Microbial Biology degree
- You have experience with common microbiology lab techniques (growing cultures, plating etc.), PCR, and/or 16s sequencing.
- You work diligently and accuracy may be your middle name
- You are a self-starter, and can work independently under minimal supervision
- You have always dreamed of this opportunity, and it is finally here
- If you have previous manufacturing or assembly experience this would be an asset
- You have superior written communication skills, and can produce detailed and informative reports
- You possess a strong interest in technology commercialization
- You take things as they come, and are interested in helping to build and form a company

## What We Offer

- Opportunity for growth
- Experience in medical device development
- Independent work environment
- A formidable challenge

## Application Process

Apply Quick – interviews can start immediately and will continue until the position is filled.

Apply directly with a Cover Letter stating your interest and how previous experience can help you quickly learn the needed skills. **Send cover letter and resume to [joseph@nimblesci.com](mailto:joseph@nimblesci.com)**
