

# Social Innovation Hub

Social Innovation Hub (SIH) supports innovators solving social problems to find the right resource at the right time, to help launch and scale their impact.

Guided by an inclusive approach to innovation, SIH is broadening who is seen as an innovator, what is seen as innovation, and how innovation scales.

## COMMUNITY AT THE CORE

SIH is the innovator's home away from home for serendipitous connection, meaningful collaboration and access to sharable technology and resources.

Proud to be part of Calgary's innovation ecosystem, SIH is creating a dynamic collision point where ideas, research and community can come together to make change. Our ecosystem partners join us in our bold vision of building an inclusive, resilient, and equitable innovation ecosystem that drives durable, scalable change as funders, strategic partners or in partnered delivery of programs and workshops.

## MEMBERSHIP BENEFITS

### Coaching & Expert Advice

1 on 1 support with SIH team and access to advice from an extensive roster of business leaders and industry experts

### Community

Connections and collaborations with diverse innovators and founders through facilitated and unexpected interactions
