About Symbiotic AI

Symbiotic AI is changing how health care professionals and artificial intelligence work harmoniously to improve healthcare. We develop cutting edge software solutions that help improve health care decisions and outcomes. Our team is made up of passionate individuals from the field of health care, data science, and digital health.

About the Role

We are looking for a motivated and passionate Website Developer to join our growing team. Your primary responsibility as the Website Developer on our team will be to design and implement Symbiotic AI's public-facing website.

In your role, you will have the opportunity to understand the mission, vision, and values of Symbiotic AI and convey them effectively on the company website in a professional and aesthetically appealing way. The ideal candidate for this role has experience designing and implementing websites for tech start-ups.

If you are driven, curious and motivated to be part of a team that strives to improve the health of people, please send us your cover letter and resume to be considered for an interview.

Responsibilities:

- Understand Symbiotic AI's mission, vision, and values
- Collaborate with the company co-founders and employees to understand their website preferences
- Create a list of website design and functional requirements
- Translate the identified website requirements into an implemented website
- Lead and execute iterative website development based on feedback from the company co-founders, employees, and broader stakeholders
- Adhere to industry best practices of website design standards and processes

Required Qualifications:

- Minimum of one year of experience in website development
- Completion of a Degree, Diploma, or relevant work experience in website development
- Proficiency in web programming languages such as HTML, CSS, and JavaScript
- Competency in graphics design
- Strong communication skills
- Ability to work independently

Experience with the following is an asset:

- Familiarity with tech start-up culture
- Digital health technology
- Project management and design source control tools

What we offer you:

- Competitive compensation packages
- Professional development and growth opportunities
- Option to work hybrid remote after onboarding
- Paid time off

How to apply:

Please send us your cover letter and resume to careers@symbioticai.ca with the job title in the subject line. References can be submitted in advance or upon request.

Equal Opportunity Employer

Symbiotic AI is committed to fostering an inclusive, equitable and accessible work environment. Our company is dedicated to building a team that reflects the diversity of our community, including those with disabilities. Symbiotic AI is committed to providing accommodations in all parts of the hiring process in accordance with provincial legislation. If you require an accommodation, please contact us and we will work with you to meet your needs.

We thank you for your interest in this role and working with Symbiotic AI. Only applicants that have been selected for an interview will be contacted.
